Go2Call Receives INTERNET TELEPHONY® Magazine's "Product of the Year" Award for 2005

Go2Call Softphone SIP Dialer V9 Honored for Outstanding Innovation

Evanston, IL, Jan. 6th, 2006 — Go2Call announced today that Technology Marketing Corporation (TMC®)'s INTERNET TELEPHONY® magazine (www.itmag.com) has named Go2Call as a recipient of a 2005 Product of the Year Award. INTERNET TELEPHONY has been the VoIP Authority since 1998™.

Designed for optimization of reliability and speed, the Go2Call Softphone SIP Dialer V9 is the latest innovation by Go2Call's research and development teams. With advanced features, the dialer provides accelerated performance and has a built-in diagnostic and feedback channel. Additionally, Go2Call has enhanced the Softphone to offer customizable branding and skinning options.

"The newly enhanced Softphone is just one of the many improvements we've made to the Go2Call platform. We've optimized the Softphone in order to support our customers deploying dialers in their businesses. The Softphone is convenient for the end user and allows the service provider to build brand value. The dialer is a key link in Go2Call's hosted, private labeled residential and business VoIP offerings," states Larry Spear, Co-Founder of Go2Call. To download the latest dialer visit <http://www.go2call.com/alias/download.jsp>

"Each year INTERNET TELEPHONY magazine bestows its Product of the Year awards on companies that have demonstrated excellence in technological advancement and application refinements. Go2Call has demonstrated to the editors of INTERNET TELEPHONY that its products or services are committed to quality and innovation while addressing the real needs in the marketplace," said Rich Tehrani, Group Publisher and Editor-in-Chief of INTERNET TELEPHONY.

The Product of the Year Award winners for 2005 will be highlighted in the January and February 2006 issues of INTERNET TELEPHONY magazine.

About Go2Call

Go2Call delivers a complete suite of hosted international VoIP solutions to service providers worldwide. Go2Call's proprietary platform enables PTTs, carriers, ISPs, broadband providers, VoIP license holders, call shops, distributors and resellers to offer powerful VoIP services while building equity in their brands and reducing capital expenditure.

The Go2Call Global Platform is comprised of an Operational Support System (OSS), Global Call Termination and Origination, Multiple-Tier Billing and Flexible Branding Options, providing a strong foundation for each Go2Call solution and giving our customers valuable service offerings and the means to manage and grow a successful business. Steadily growing for the past 6 years, Go2Call has built a reputation as a global leader in the development and delivery of low cost, high quality, hosted VoIP calling services.
